Experiences

Rokin Solutions (Hamyar System)   Aug 2022 - Present
UI/UX Designer - Webflow Developer

At Rokin Solutions, I work as a UI/UX Designer and Webflow Developer, creating intuitive interfaces and designing user-friendly digital experiences. I have contributed to both UI/UX design projects and Webflow development, ensuring modern, engaging, and functional designs that align with client goals.

Clinic Management App
UI/UX Design

Redesigned a clinic appointment management app with a modern interface and added features like private messaging for patients and appointment management for doctors.

- Redesigned the app with a modern and user-friendly interface.
- Added new features to enhance the functionality for both patients and doctors.
- Collaborated closely with the development team to ensure smooth implementation of the design.

JL Advisers - Immigration Firm

UI/UX Design

Designed a professional and user-friendly landing page for JL Advisers, an immigration law firm, to enhance their online presence and client engagement.

- Created a clean and structured layout to highlight legal services.
- Improved user experience with clear call-to-actions for consultations.
- Ensured a responsive and visually appealing design across all devices.

Royagasht- Tourism Agency

UI/UX Design

Designed a visually appealing and user-friendly website for Royagasht, a tourism Agency, to enhance its online presence and service accessibility.

- Developed a structured layout to showcase travel packages and services.
- Focused on intuitive navigation for a seamless booking experience.
- Designed a responsive and engaging interface optimized for all devices

---

Golden Pulse Clinic

UI/UX Design and Webflow Development

Golden Pulse is a beauty clinic offering skincare and wellness treatments. I redesigned their website with a modern, user-friendly interface, making it easier for clients to explore services and book appointments seamlessly.

- Designed a clean and structured layout to showcase services effectively.
- Improved user experience by simplifying the appointment booking process.
- Ensured a responsive and visually engaging design across all devices.

Playria

UI/UX Design and Webflow Development

Designed a modern and engaging website for Playria, a kids' care platform focused on providing services and resources for parents and caregivers.

- Developed a clean and structured layout to highlight childcare services.
- Focused on user-friendly navigation for easy access to information.
- Designed a responsive and visually appealing interface across all devices.

IdenBlock - Decentralized Identity Platform

UI/UX Design and Webflow Development

Designed a modern and intuitive website for IdenBlock, a Web3 decentralized identity platform, ensuring a seamless user experience and clear presentation of its services.

- Designes a clean and structured layout to showcase IdenBlock solutions.
- Focused on user-friendly navigation to simplify complex Web3 concepts.
- Designed a responsive and visually appealing interface optimized for all devices.
